Experience

Frontend Developer *Source, ltd (Jun, 2022 - Present)*

Teamwork on the creation of an integrated accounting and information transfer platform (marketplace). the workflows were based on SCRUM (sprints, youtrack, evaluations) and GitHub.

I Was directly involved in the development of almost all components of the project: offers, responses, transactions, payments, reviews, ratings, disputes, chats (based on mattermost), user and administrator accounts, administration of currencies, wallets, payments and disputes. I have configured routing and authorization (jwt). And also filled Storybook, wrote tests on Vitest.

Used: Typescript, React JS, HTML and CSS, Audacity, Materialyi 5, Stylized components, Diagrams, Apollo, With WebSocket, Git, Which, Docker, Vita, Storybook, Vitest.

Pet project: CSV file editor. I independently developed an application on electron + rect + mui. Automatic, specific processing and validation of csv files.
